

# Bal Bhawan School

” \_ Education is part of the foundation of all progress and growth, both as an individual and as a society.” \_

At Bal Bhawan School, we understand this and thus stimulate curiosity in the young, impressionable minds of posterity, equipping them with the right imagination, aspiration and knowledge to be better human beings.

In recognition of these efforts, our school has been conferred with **\*Brainfeed School\* \*Excellence Awards\* \*2022-23\*** in the following categories:

*Best Infrastructure School*  
*Excellence in Digital Technology Initiative*  
*Best Creative School of the year*  
*Best Community and Collaboration School*

*It is surely a proud moment for the Bal Bhawan Family as this award honours our institution's outstanding professional achievements and its contribution towards nation building and the tireless service of the school faculty.*

*Congratulations for hitting another milestone!!!!*

**"WHEN YOU  
REFUSE TO REUSE ,  
RECYCLE  AND  
REDUCE, IT'S THE  
EARTH YOU ABUSE"**

# Grade 1

The students of Grade-1 showcased the importance of the 3R's i.e. REUSE, REDUCE AND RECYCLE through a Show and Tell Competition. It was conducted on Friday 11th November 22. The learners were excited to choose and speak on the objects that could be recycled, reused or reduced and they gave descriptive narrations about them as well.

Unless we are willing to encourage our children to reconnect with nature and appreciate the natural world, we can't expect them to help in protecting and caring for our mother earth.

The inspiring presentations helped them to get a realistic appraisal of their skills to discover the power of 3R's and to share its knowledge. Our judges were left bewildered with the immensely talented craftsmanship of the objects made of used bottles ,mud pots, paper and even pencil shaves .It was a day full of learning .

**“Paper bags are gaining importance as these bags are reusable, recyclable and biodegradable and at the same time environment friendly as well.♻️ They**

**pose less threat to wildlife.”**

**With this objective in mind, our learners of grade 1 made paper bags by reusing old newspapers. This craft activity was not only fun and engaging for the learners but they were also excited to take their bags home and use it in their day to day lives.**

**Through this activity our grade 1 kids were able to spread awareness on importance of paper bags and ban pastic bags to make our EARTH more beautiful and clean...**

# MATHS ACTIVITY

## Grade 2

Drawing is a natural process for all children. Drawing ultimately becomes a child's way of expressing their understanding of the world. Our young students of Grade 2 had an interesting Math Activity where they had to draw a scenery using the basic straight and curved lines.

The main aim of this activity was to develop hand-eye coordination and creative expression in our little wonders.

It also helped to build their attention span.

The outcome was incredibly beautiful art work that had our kids absolutely thrilled and high on confidence.

# Pronouns are only useful when you combine them with other words

Our Grade 2 enthusiasts penned down thoughtful and creative dialogues between themselves and their friend. They beautifully expressed their thoughts while writing the dialogues.

They were far more than excited doing this activity where they not only wrote the dialogues using pronouns, but also illustrated them. It was really good to see them writing well. The fun loving activity was enjoyed by all the kids thoroughly.

# Grade 3 Learning by Doing

The kids of Grade 3 had an opportunity to explore how beaks of birds are adapted for eating different foods.

Students used different tools to understand the concept that birds have different beaks according to the food they eat.

They compared the beaks of different birds on the basis of the type of food they are able to eat . They were able to conclude that birds eat different types of food because of their specific shape and size of the beaks.

Through this compare and contrast beak activity students learnt that birds' beaks vary in sizes and shapes according to their specialized function for that species of bird.

*Inter-School  
Activities*

**“A flower’s appeal is in its contradictions – so delicate in form yet strong in fragrance, so small in size yet big in beauty, so short in life yet long on effect.”**

**The young learners of Bal Bhawan's primary wing showcased their creative talent by participating in an Inter-House Competition. They made aesthetic flower rangolis using fresh flowers. Their creativity knows no bounds and this was reflected in the students presentation. Creativity is inventing, experimenting, growing, taking risks, breaking rules, making mistakes, and having fun.**

Inter-House Flower Arrangement Competition

Winners 🏆🏆🏆🏆🏆🏆

# National Campaign on Source Segregation

In collaboration with the Government of India, a national campaign for source segregation is being conducted in all the cities of Madhya Pradesh.

The theme of this campaign is Hara Geela Sookha Neela . Bal Bhawan School students have actively participated in this campaign.

*The students of grade 4th has written slogans to create awareness about segregation of waste.*

*Class 5th students made green and blue dust bins using the household waste material.*

*Class 6th students made collages which explains ,How to segregate and importance of segregation .*

*Class 7th students who believe in segregating waste at source has taken selfi with a poster "My House segregates waste "*

*Class 8th students explained about segregation of waste-need, and harmful effects of waste if it is not segregated ,and how can we do it , in different sections of 8th class.*

# कक्षा - दूसरी

## गतिविधि

कक्षा दूसरी के छात्र-छात्राओं ने - "भालू का घर" से संबंधित जानवर के निवास स्थान का मॉडल बनाया। सभी छात्राओं ने बड़े उत्साह के साथ एक से बढ़कर एक मॉडल बनाया और उस पर अपने विचार प्रकट किए।

**Children are the  
best creation of  
God , they spread  
joy in every  
season**

**Children are the best  
creation of God , they spread  
joy in every season  
With this thought in mind ,  
the children made this day  
memorable. The students of  
West Wind Kindergarten  
celebrated Children's Day on  
Monday, 14th November with  
great fervour and pomp.**

**The festivity of the day was  
obvious as the little  
munchkins turned up in  
their favourite outfits.**

**A special assembly was conducted  
in which the teachers sang their  
favourite songs and then they  
organised a Disney Parade for  
which, the teachers dressed up as  
some of their favourite Disney  
Characters like Elsa, Winnie the  
Pooh, Minnie Mouse etc. They  
danced to some Disney songs as  
well. The little ones were amazed  
and bewildered by their teacher's  
performances .**

**The children played games, danced  
and had a gala time with their  
friends.**

**They also made beautiful  
takeaways as a memento of a  
wonderful day full of excitement.**

# Happiness is making your first pot on a pottery wheel.

Commercial Art students had a tour of the Potters Market at Gohar Mahal and participated in pottery making. They made pots on wheels and engaged in the technique of ceramic and terracotta pottery. Also, observed different styles of pottery.

It was an excellent learning experience while having fun with clay.

Here's a glimpse of the day:

Industry as it is the fastest growing industry today.**

# Teachers Orientation Program

Teacher's Orientation workshop was organised by Archaeological Survey of India and Regional Museum of Natural History at Bhimbetika in order to celebrate World Heritage Week. Teachers from 25 schools of Bhopal attended this workshop.

The workshop was conducted on the topic 'Soil Cycle and Evolution of Life' The aim of the workshop was to facilitate the teachers as master trainers so as to sensitize the students for Conserving Heritage Sites of India as well as living in harmony with the environment by adopting ecofriendly practices in daily life.

**\*Winter is not a season its a celebration....\***  
**And the celebration has begun...**

The month has marked its place with accolades ,honour, recognition and laurels on every front. The greatest discovery was that *\*nothing is impossible\** and that I can-do attitude has made a positive difference. This feeling ie the sense of accomplishment is the driving force and we Bhawanites are people with strong sense of purpose, persistence and performance.

Time and again we have proved our capabilities and we are proud of it. The journey has just begun....more fruits of our achievements are waiting to be plucked down and this motivates us to move on.

To quote Robert Frost -

*The woods are lovely dark and deep,  
But I have promises to keep,  
And miles to go before I sleep,  
And miles to go before I sleep.*
